

MAIT Undercarriage Parts Introduction

YANTAI ORIENT specializes in the production of **ROTARY DRILLING RIG UNDERCARRIAGE PARTS**. Our main products are **TRACK SHOE, TRACK CHAIN, TRACK ROLLER, CARRIER ROLLER, SPROCKET** and **IDLER**, which are cost-effective and suitable for *BAUER, SOILMEC, CASAGRANDE, IMT, CMV, LIEBHERR, SANDVIK, ATLAS COPCO, JUNTAN, SANY, ZOOMLION, XCMG, SUNWARD, JINTAI, ETC.*

We have a strict quality control process in place to ensure the stability and consistency of product quality through both internal and external inspections. Internal inspections include tensile, impact, and metallographic experiments, while external inspections utilize caliper measurements and hardness testing.

Yantai Orient always be customer-oriented. With the advanced equipment, skilled technology and high-quality raw material, we have provided high-quality products to customers in more than 30 countries, from which thousands of customers have benefited.

Advantages of our undercarriage parts:

- High quality. Use the high level material to control the quality from the source, such as round steel, pure bushing, good floating oil and so on parts.
- Advanced casting and forging equipment, heat treatment and inspection equipment.
- Professional engineer team, export and operation team. Most of our engineers have rich experience of more than 25 years in the undercarriage parts industry. Our export team will reply the email in the shortest time and send quotation sheet in professional ways. Operation team is responsible for the efficient and fast delivery.
- Rich experience in exporting to more than 30 countries. We have cooperated with 1000+ customers in the world, including America, Europe, Middle East, Southeast Asia, etc.
